

CedarSafe®

NaturalClosetLiner™

100% Aromatic Cedar

Affordable Luxury. Natural Protection.

Your complete source for 100%
Aromatic Eastern Redcedar
www.cedarsafe.com

Since 1939, the manufacturer of CedarSafe planks and panels, has concentrated on making the finest products from 100% Aromatic Eastern Red Cedar. All of our products are manufactured at our U.S. manufacturing facility in Gainesville, Missouri.

We employ sustainable processes that minimally impact the environment. Not only are our Aromatic Eastern Red cedar trees sourced domestically and harvested from the wild, but we strive to eliminate waste and fully utilize our sole resource. Therefore, we use the entire tree to make our products.

The primary use of Aromatic Eastern Red Cedar is for lining closets, pantries and additional enclosed areas to protect clothes, linens, and other valuables from damage due to moths, cockroaches, silverfish, and mildew. Aromatic Eastern Red Cedar is a chemical-free, non-toxic alternative to other harmful insect repellents that adds effortless elegance to any closet, pantry, or installed area.
